

## Photo/Video Consent

The coaches and executive at Breakers would like your permission to use digital photography and videotaping this season.

The videos would be taken and used by the coaching staff as needed to review, analyze and communicate (to your swimmer and to other coaches on Breakers) stroke information.

Our club Website displays information about the swim team, meets, the coaches and the executive. Occasionally, pictures of swimmers are added to the feature stories. This website is accessible to anyone who wants to look at it.

Our club Instagram and other social media platforms will display pictures and video of swimmers and information about their achievements.

Finally, local online and print newspapers run articles about the Breakers Swim Team meets and pictures of the swimmers are often included.

For these reasons, we would like to ask for consent for your child to be videotaped and photographed.

I, \_\_\_\_\_, hereby give permission for  
(printed name of parent/guardian)

\_\_\_\_\_ to be digitally recorded and the images  
(printed name of swimmer)
